1936 Master De Luxe and Standard Chevrolets are Replete with New Features

New Master De Luxe and Standard Chevrolets for 1936 show marked advances in appearance and in engineering. Perfected hydraulic brakes, high-compression engines with full-length water jackets, and balanced carburetion are among the mechanical improvements. The solid steel Turret Top Fisher body is now used on the Standard as well as the Master De Luxe models. Either Knee-Action or conventional springing may be had in the Master models. The illustrations show: Top left, the Master De Luxe sport sedan, with built-in trunk; top right, the re-styled, deeply moulded radiator grille, used on all models; lower left, the simple arrangement of Chevrolet's perfected hydraulic brakes, all models; and, lower right, a Standard sedan.

# To Our Friends and Customers:---

We take pleasure in presenting herewith our statement of condition, as submitted to the Comptroller of the Currency, and invite your careful attention to same.

We point with pride to the fact that our Bank took care of each and every customer during the past five years of depression, and that we are in better position to serve our customers today than we have ever been.

Every depositor in this Bank is insured in the Federal Deposit Insurance Corporation to the extent of \$5,000.00 to each depositor.

### We will appreciate any business entrusted to our care
